Schwab Money Funds
Mutual funds designed to offer investors stability of capital, liquidity and current income.

1. Stability
Schwab Money Funds are managed to reduce portfolio, credit and interest rate risks. Our funds seek to maintain a stable $1 per share net asset value¹ (NAV).

2. Liquidity
Schwab Money Funds are managed to provide liquidity to meet redemptions. They invest only in short-term and high quality investments as required by the Securities and Exchange Commission (SEC).

3. Income
Schwab Money Funds emphasize stability and liquidity while seeking to generate current income. They distribute monthly dividends based on the return of the underlying investments, which reflect short-term interest rates.
