Accrued interest represents the interest that would be received if the fixed income investment was sold prior to the coupon payment.

Estimated Annual Income ("EAI") and Estimated Yield ("EY") calculations are for informational purposes only. The actual income and yield might be lower or higher than the estimated amounts. EY is based upon EAI and the current price of the security and will fluctuate. For certain types of securities, the calculations could include a return of principal or capital gains in which case EAI and EY would be overstated. EY and EAI are not promptly updated to reflect when an issuer has missed a regular payment or announced changes to future payments, in which case EAI and EY will continue to display at a prior rate.

All investments in this sample are hypothetical and not intended to reflect the share price of any existing entity. Values and calculations may not be an accurate reflection of the transactions and balances. The names used are fictional and are not intended to reflect any existing individual or company. All examples, figures and disclosures used are for illustrative purposes only and are not intended to be reflective of results that a client should expect to achieve, nor should they be construed as recommendations to buy, sell or continue to hold any investment or investment type.
