

Non-U.S. Exchange Traded Funds (ETFs) available to UK Residents

What are UCITS ETFs?

To comply with local United Kingdom regulations related to PRIIPS (Packaged Retail Investment & Insurance Products), U.S.-registered ETFs are not able to be purchased for Schwab clients who are resident in the UK. These rules govern the sale of certain investment products to UK residents. As a result of these rules, UK residents may only hold or liquidate existing U.S. exchange traded product positions. Initial or additional purchases are not permitted.

As an alternative, Schwab offers ETFs that have been authorized as Undertakings for Collective Investment in Transferable Securities (UCITS) under EU and UK rules. These funds meet relevant regulatory requirements, offer investment strategies similar to those of their U.S. counterparts, and are available to UK investors. Many UCITS rules are aimed at reducing the risk by safeguarding the way investment products are managed and controlled. UCITS rules also require an ETF to be liquid, and always accessible. UCITS ETFs are subject to a US\$50 foreign transaction fee and must be placed by phone with the help of a Schwab Global Investing Services specialist.

Schwab clients who are non-U.S. residents can take advantage of Schwab's offering of [non-U.S. ETFs](#). **This document is for the use of non-U.S. residents only, specifically those who reside within the UK.**

Eligibility to purchase is based on country/region of residence.

More information can be found by visiting the [Non-US ETF Research tab](#) within your account. Questions Contact Schwab London branch at: [0808 234 6306](tel:08082346306)
